

Administering the candidate results service (Cambridge Associates)

Our candidate results service gives your candidates access to their results directly.

You control which of your candidates have access to this service, and which exam series they can view, through the 'Candidate Results website administration' page on [Cambridge International Direct](#) ('Direct').

You can create login details for the candidate results website from the following times:

- March and June exam series – late March
- November exam series – early October.

Important: The results displayed are provisional and for information only. Tell candidates they must **not** print screenshots of their results from the candidate results website to share with universities.

Accessing the 'Candidate results website administration' page

1. Log in to [Direct](#). Go to the 'Administer Exams' dashboard and click 'Candidate Results website'. If you cannot see this link, email info@cambridgeinternational.org.

Administer exams View Dashboard >

Download and upload files
Exchange files securely with CIE using [File Exchange](#).

View entries and results
[View your entries and results](#) by qualification or by Candidate.

Manage the Candidate results website
Set up and administer access to your [Candidate results website](#).

2. Select the relevant series from the drop-down menu and click 'Go'.

Candidate Results website administration

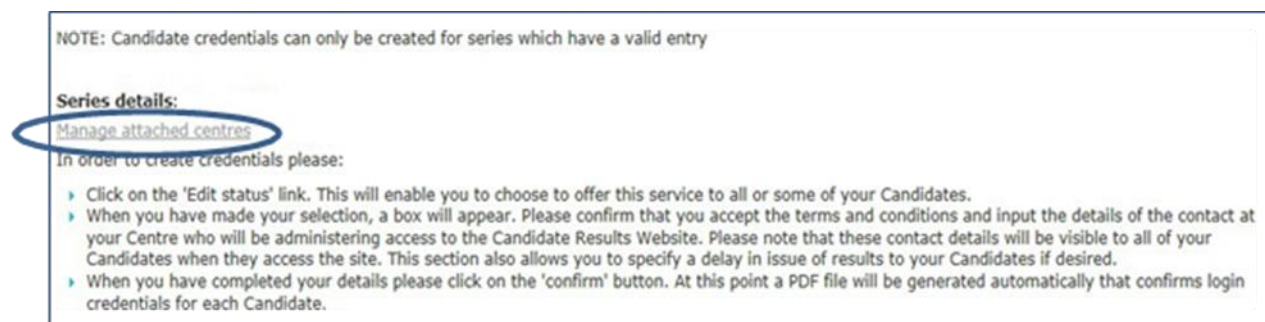

University of Cambridge International Examinations (CIE) is offering Centres the facility to administer an online results website for Candidates. This service enables Candidates to view their personal exam results online without having to go into school or college.
By signing up for this service you will be agreeing to administer and support your Candidates' access to the Candidate Results site and will be responsible for answering any queries from them.

Please select a series for which candidate login credentials are to be generated.

Please select:

NOTE: Candidate credentials can only be created for series which have a valid entry

3. Click 'Manage attached centres' to access the 'Subcentre Management' screen.

Giving Associate Centres access

To allow **all** your Associate Centres to set up their candidates with access to the candidate results service, tick the 'Use defaults' checkbox under the 'Centre' column. Any changes you make to the 'Candidate Results delay', 'Give access' and 'Provide Contact details' controls will be applied to all your Associate Centres.

To allow **selected** Associate Centres to set up their candidates with access to the candidate results service, select the centres under 'Give access'. You can change your selection later.

- If you change your selection to allow a centre access to the candidate results service later, you or your Associate Centre must create the candidate credentials.
- If you untick the box so an Associate Centre can no longer access the candidate results service, their candidates will not be able to access the service.

Issuing results

To delay the release of results to candidates at some or all of your Associate Centres, enter a time delay in the 'Candidate Results delay' text box(es). Any delay will appear on the login instructions created for each candidate who has access to the candidate results service.

If you change the time delay at a later date, you or your Associate Centre must re-create the candidate credentials to include the change in the results release time on the candidate's Confidential Examination results information.

Contact details

We do not communicate directly with candidates about the candidate results service or their results. To make your Associate Centres the single point of contact for queries from candidates, choose 'Centre defined' from the drop-down list in the 'Provide contact details' column. The exams officer at that Associate Centre will now be the single point of contact for queries from their candidates.

If you leave this setting as 'Default', you will be the single point of contact for queries from candidates relating to results. Enter contact details in the 'Default contact details' section at the bottom of the page.

If you make amendments in the 'Provide contact details' column, you or your Associate Centre must recreate the candidate credentials to include this change in the contact details on the candidate's Confidential Examination results information.

Click 'Save'.

You can find guidance on generating candidate credentials on our 'Administering the Candidate Results Service' factsheet, available on our website: www.cambridgeinternational.org/results

Associate Centre administration

If you have given some or all of your Associate Centres the ability to set their candidates up with access to the candidate results service, staff at these centres should refer to our 'Administering the Candidate Results Service' factsheet, available at <http://www.cambridgeinternational.org/results>. This explains how to set up their candidates with access to the candidate results service.

To access an Associate Centre's PDF files, select the Associate Centre from the drop-down list and click 'change Subcentre'.

To read PDF documents you will need Adobe Reader software, which you can download for free from www.adobe.com.

Important: The results displayed are provisional and for information only. Tell candidates they must **not** print screenshots of their results from the candidate results website to share with universities.
